interchim me

puriFlash® XS 520 Plus Small but mighty

Optimized for your routine Flash purification

Components

Control unit

Pump

UV detector

Fraction collector

Solvent container

Integrated column support

Stainless steel needle with connection (54 mm)

Pump

Flow rate: 300 mL/min

Optimal flow rate for columns up to 800 G in size

Max. pressure: 20 bar Quaternary gradient valve

Air vent

Solvent container with drainage system

Injection

Injection mode: liquid or solid

Dry load with column compensation

"Load & GO" technology: staggered dry load for even more efficient injections automated

via a 4-way electric valve (included in the Ultra Pack)

Detection

UV detector 200-400 nm

UV detector 200-800 nm (included in the Ultra Pack or in the UVextended pack)

"DAD" technology

Multi-wavelength and scan across a 600 nm band Spectral visualization and confirmation of purity

0.3 mm cell for optical path length

Compatibility of columns & bracket

Particle sizes: 15 µm, 25 µm, 30 µm, 50 µm

Size:

• Preparative with internal diameter up to 80 mn (3")

• Flash from 4G to 800G

Column support: integrated

Fraction collector Content: • 2 long racks • 112 test tubes (18 x 150 mm) Technology: Drainage system for the fraction collector Automatic cleaning of the fraction collector (to avoid cross-contamination with the previous purification) Recommended racks Delivery includes a choice of 2 racks from list below: Rack for test tubes: 13 x 73 mm | 13 x 100 mm | 16 x 150 mm 18 x 150 mm | 21 x 150 mm | 25 x 150 mm 28 x 150 mm | 29,5 x 200 mm · Rack for Schott bottles 250 mL Software Control via InterSoft X software & control unit Remote control Touchscreen 15" 4 USB ports "Flash & GO" technology: compatible with our TLC to Flash & Prep smartphone app System optimization Tube inside diameter 1.6 mm Detection cell for optical path length: 0.3 mm/40 µL Safety Collector with drainage system «Fume Encloser» technology (allows the use of the purification system without a hood). Accessory set PEEK needle Luer-lock adaptor ETFE, male to 4-28 Schott laboratory bottle 250 mL Adaptor for Schott laboratory bottle 250 mL TYGON tubing with T-piece for the drainage system PEEK hose with fitting for pressure test ETFE hose connects the outlet of the 4-way injection valve (port no. 2) to the inlet of the 4-way injection valve (port no. 1) (included in the Ultra Pack) Cable protection made of metal UV cell for testing Mouse Stylus with bracket Power cable (design adapted to the country of destination)

Communication Network cable RJ45

Communication cable Sub-D9 male/female Communication cable Sub-D9 female/female

Feed 110 V or 220 V
